EXPERIENCE

Doctoral Candidate
Delft University of Technology
July 2013 – Ongoing | Delft, NL

- Thesis title: *Fast Iterative Solution of the Time-Harmonic Elastic Wave Equation at Multiple Frequencies*
- Scientific supervision: Martin B. Van Gijzen (TU Delft) and René-Édouard Plessix (Shell International)
- My research interests include: Numerical Linear Algebra, Model-Order Reduction, Optimal Control and Parallel Programming

Student Research Assistant
Technical University of Berlin
Oct 2009 – Aug 2011 | Berlin, GER

- Modeling, Simulation, and Control of Drop Size Distributions in Stirred Liquid/Liquid Systems

Internship as Scientific Programmer
German Aerospace Center
June 2009 – Sep 2009 | Braunschweig, GER

- Coupled Flow-Structure Simulations with MPI

EDUCATION

M.S. in Applied Mathematics (double degree program)
Delft University of Technology
Aug 2011 – June 2013 | Delft, NL

M.S. in Scientific Computing (double degree program)
Royal Institute of Technology
Aug 2011 – June 2013 | Stockholm, SE

B.S. in Mathematics
Technical University of Berlin
Oct 2008 – Aug 2011 | Berlin, GER

B.S. in Engineering Science
Technical University of Berlin
Oct 2007 - March 2011 | Berlin, GER

LIFE PHILOSOPHY

"Good things don't come to those who wait."

MOST PROUD OF

SIAM Student Chapter
I co-founded the SIAM Student Chapter at TU Delft and served as the first president.

International Collaborations
Within my PhD research, I collaborated with colleagues from China, Singapore, Venezuela, France and The Netherlands.

Inter-cultural Understanding
I lived and studied in three different countries of Europe.

Project baNaNa
We organize technical 'baNaNa' talks for PhD students in Numerical Analysis.

STRENGTHS

Hard-working | Disciplined | Innovative | Communicative

Race biking | Outdoor | Skiing instructor | Traveling
